## Biased Based / Racial Profiling – Annual Report

**Year 2014**

Bias-based policing is described as the inappropriate reliance on race, ethnicity or national origin as a factor in deciding whether to take law enforcement action or to provide service.

According to state law (RCW 43.101.410), Local law enforcement agencies shall:

(1) Local law enforcement agencies shall comply with the recommendations of the Washington association of sheriffs and police chiefs regarding racial profiling, as set forth under (a) through (f) of this subsection. Local law enforcement agencies shall:

- (a) Adopt a written policy designed to condemn and prevent racial profiling;
- (b) Review and audit their existing procedures, practices, and training to ensure that they do not enable or foster the practice of racial profiling;
- (c) Continue training to address the issues related to racial profiling. Officers should be trained in how to better interact with persons they stop so that legitimate police actions are not misperceived as racial profiling;
- (d) Ensure that they have in place a citizen complaint review process that can adequately address instances of racial profiling. The process must be accessible to citizens and must be fair. Officers found to be engaged in racial profiling must be held accountable through the appropriate disciplinary procedures within each department;
- (e) Work with the minority groups in their community to appropriately address the issue of racial profiling; and
- (f) Within fiscal constraints, collect demographic data on traffic stops and analyze that data to ensure that racial profiling is not occurring.

(2) The Washington association of sheriffs and police chiefs shall coordinate with the criminal justice training commission to ensure that issues related to racial profiling are addressed in basic law enforcement training and offered in regional training for in-service law enforcement officers at all levels.

(3) Local law enforcement agencies shall report all information required under this section to the Washington association of sheriffs and police chiefs.

The Lake Forest Park Police Department (LFPPD) has established a policy for Biased Based Policing. The LFPPD utilizes the Lexipol Policy system and adopted policy §402, which covers Bias-Based Profiling. According to the LFPPD Policy §402, the purpose of this policy is to ensure that employees of the Lake Forest Park Police Department do not engage in bias-based policing or violate any related laws while serving the community.

## Biased Based / Racial Profiling – Annual Report

Year 2014

The Lake Forest Park Police Department (LFPPD) strives to provide law enforcement to our community with due regard to the racial, cultural or other differences of those it serves. It is the policy of this department to provide law enforcement services and to enforce the law equally and fairly without discrimination toward any individual or group.

The LFPPD has a citizen complaint review process that can adequately address instances of racial profiling. The process is accessible to the citizens and is fair. Officers found to be engaged in racial profiling are held accountable through the appropriate disciplinary procedures within police department policy §1020.

According to policy §402.4.2 (BUSINESS CARDS), officers shall provide a business card upon request. The business card shall contain identifying information. **There have been no complaints for failure to provide business cards upon request for the year 2014 by any members of this department.**

In policy §402.6 (ADMINISTRATION), each January, the Administrative Sergeant shall review the Department's effort to prevent bias-based profiling and submit an overview, including any minority or other public input, to the Chief of Police. This overview should not contain any identifying information regarding any specific complaint, citizen or officer. **In 2014, no reports or investigations were conducted in regards to minority or racially based incidents.**

According to §402.7 (TRAINING), all members of this department are encouraged to familiarize themselves with and consider racial and cultural differences among members of the community and shall attend training on the subject of bias- based policing. Each member of this department will thereafter be required to complete an approved refresher training every five years or sooner if deemed necessary, in order to keep current with changing community trends.

The LFPPD has a 5 year rotation of racially based training given to all members of the police department. **The last major training was conducted in 2012. The next department training will be conducted in 2017, although new officers will have individual training on Bias Based Policing.** Three officers had training 2013 and 2014. This makes all officers in compliance at year-end 2014.

The LFPPD maintains a record management system and collects demographic data on traffic stops and analyzes that data to ensure that racial profiling is not occurring. Below is the available data related to traffic stops, including demographic data:

## Biased Based / Racial Profiling – Annual Report

Year 2014

### TRAFFIC VOLUME

The City of Lake Forest Park has two State Routes, SR522 (Bothell Way NE) and SR104 (Ballinger Way NE). According to the State of Washington Department of Transportation Trips System ANNUAL TRAFFIC REPORT, in 2013, there is an average daily traffic volume of 42,000 vehicles on SR522 before SR104 (6,000 increase from 2012) and 52,000 vehicles after SR104 (also a 6,000 increase from 2012).

#### Average Daily Traffic Volume

State Route	Daily	Weekly
SR522	47,000	329,000
SR104	17,000	119,000
