

Appendix C: Telephone Survey Report

PREPARED FOR:

LAKE FOREST PARK

Telephone Survey

August 2014

PREPARED BY:

DHM RESEARCH

(503) 220-0575 • 239 NW 13th Ave., #205, Portland, OR 97209 • www.dhmresearch.com

1. | INTRODUCTION AND METHODOLOGY

Between August 7 and 10, 2014, Davis, Hibbitts & Midghall, Inc. (DHM Research) conducted a telephone survey of 150 residents in the city of Lake Forest Park to gauge their priorities and opinions related to city services and other local issues.

Research Methodology: The telephone survey consisted of 150 residents in the city of Lake Forest Park and took approximately 14 minutes to administer.

In gathering responses, a variety of quality control measures were employed, including questionnaire pre-testing and validations. For a representative sample, quotas were set by age and gender. In the annotated questionnaire, results may add up to 99% or 101% due to rounding.

Statement of Limitations: Any sampling of opinions or attitudes is subject to a margin of error. The margin of error is a standard statistical calculation that represents differences between the sample and total population at a confidence interval, or probability, calculated to be 95%. This means that there is a 95% probability that the sample taken for this study would fall within the stated margins of error if compared with the results achieved from surveying the entire population.

For a sample size of 150, the margin of error would fall within +/-4.8% and +/-8.0% at the 95% confidence level. If they answered 50% each way, the margin of error would be 8.0%. The reason for the difference lies in the fact that when response categories are relatively even in size, each is numerically smaller and thus slightly less able—on a statistical basis—to approximate the larger population.

DHM Research Background: DHM Research has been providing opinion research and consultation throughout the Pacific Northwest and across the United States for over three decades. The firm is non-partisan and independent and specializes in research projects to support public policy-making. www.dhmresearch.com

2. | SUMMARY & OBSERVATIONS

Overall, residents have very high opinions of Lake Forest Park.

- 67% believe things in the city are headed in the right direction, compared to just 11% who believe things are off on the wrong track.
- 85% are satisfied with the amount of City services they receive for the taxes they pay.
 - Satisfaction ratings are above 80% among all demographic groups.
- 8 of the 13 City services in the survey receive satisfaction ratings of at least 5.0 on a 1-7 scale.
 - Residents give the highest ratings to responding to emergencies (mean: 6.1, top box: 88%), law enforcement (5.5, 80%), and road maintenance (5.4, 80%).
 - Asked about City services they would like to see increased or eliminated, large majorities say that everything is good and that nothing should be changed.

Residents prioritize public safety and law enforcement, though they personally feel very safe in the city.

- 18% mention crime prevention/public safety issues when asked to name the most important issue they would like their city government to address.
- Residents rate *responding to emergencies and natural disasters* and *law enforcement* as the top two funding priorities for the City (mean ratings of 6.1 and 5.5 respectively on a 1-7 scale).
- Nearly all (98%) residents feel safe in their home (79% “very” safe) and 90% feel safe on the streets of Lake Forest Park (63% “very” safe).
- Despite the emphasis on safety, many residents say they do not like traffic cameras, especially those at stoplights.
 - Maintaining and installing new camera-enforced stoplights receives, by far, the lowest priority ratings of any City service (mean: 2.6 out of 7, top box: 18%).
 - Traffic cameras is the most commonly mentioned City service that residents want reduced or eliminated.

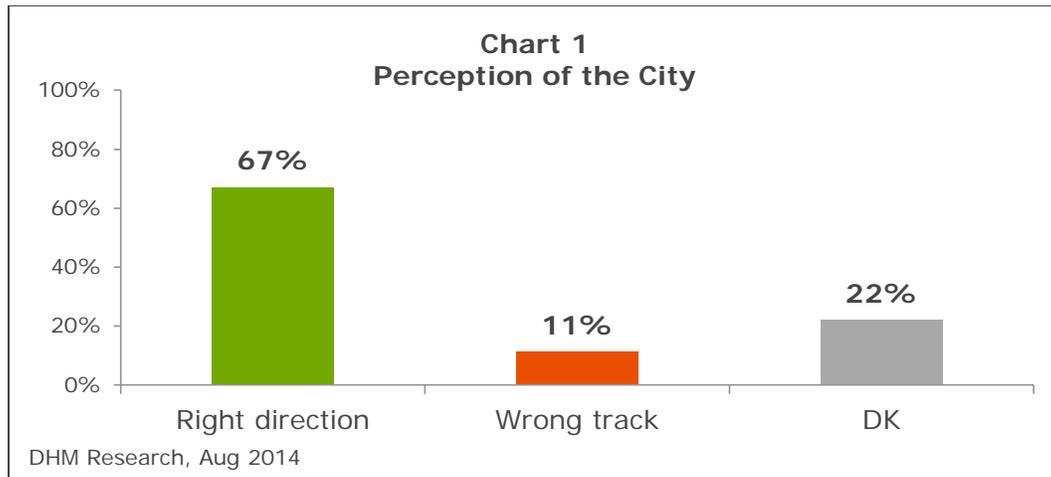

Issues relating to sidewalks, crosswalks, and bike lanes are a priority to residents.

- Residents rate *sidewalks, crosswalks, and pedestrian walkways* as the most important transportation improvement to fund over the next 10 years (79% overall importance, 54% “very” important).
 - Although a slightly lower priority, 60% rate *bike lanes and bike paths* as important to fund over the next 10 years.
- Increasing the number of sidewalks and bike lanes is the second most mentioned City service that residents feel should be increased or added.
- 55% believe it is important to invest in infrastructure to make it easier to get in and out of the Lake Forest Park Town Center and from the Burke-Gilman Trail to the Town Center.
- The emphasis on crosswalks and bike lanes may relate to residents’ views on future growth. 56% agree that Lake Forest Park should encourage more compact neighborhoods where people can walk or bike to shopping, retail, and other businesses.

3. | KEY FINDINGS

3.1 | General Perceptions

The survey began by asking residents if they believe things in Lake Forest Park are headed in the right direction or if they are off on the wrong track (Q1).

Two-thirds (67%) of residents felt that things are headed in the right direction, compared to just 11% who said wrong track. Two in 10 (22%) were unsure.

Demographic Differences: Although sample sizes are small, younger residents (ages 18-34) were more likely to be optimistic about the direction of the city than those ages 55 and older; a common trend seen in other cities.

3.2 | City Priorities

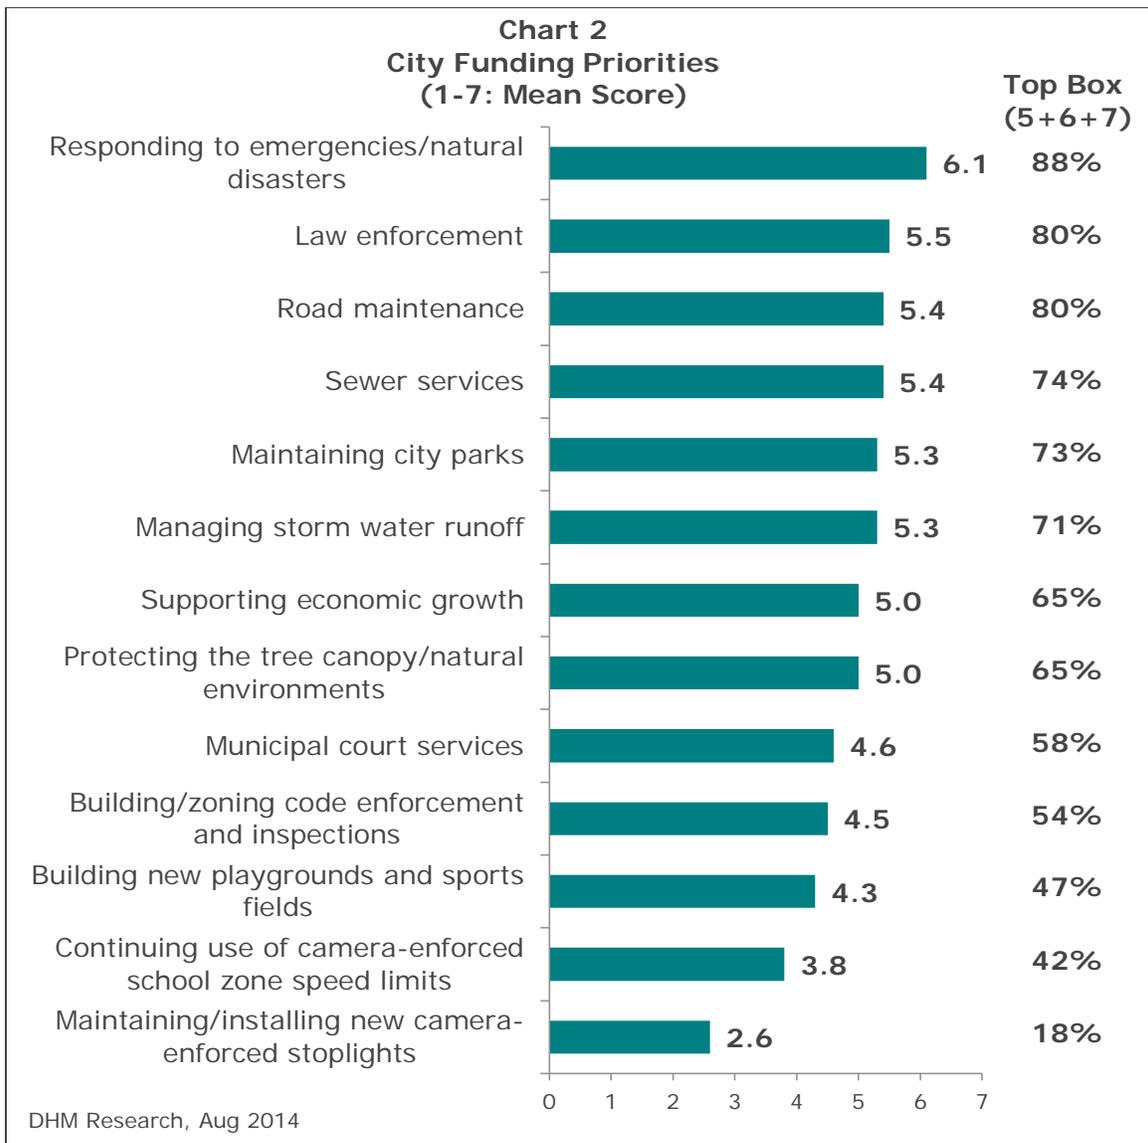

Residents were asked, unprompted, to name the most important issue they would like their city government to address (Q17). The following were the most common responses¹:

- *Crime prevention/public safety* (18%)
- *Zoning issues* (6%)
- *Traffic safety* (5%)
- *Concern for the environment* (5%)
- *Law enforcement/emergency services* (4%)
- *Economic growth* (4%)
- *Maintaining road infrastructure* (4%)
- *Everything is good/doing a good job* (5%)
- *Nothing/none* (8%)
- *Don't know* (11%)

¹ See Appendix 1C for full responses.

Crime prevention/public safety issues were mentioned by 18% of residents, the most of any issue. No other issue garnered more than 6%. A combined one in four (24%) said either *everything is good, nothing, or don't know*.

Residents were read a list of services provided by the City of Lake Forest Park and asked to rate each service using a scale of 1 to 7, where 1 meant a very low funding priority and 7 meant a very high funding priority (Q2-Q14).

Top Funding Priorities: (Mean rating > 5.0)

The following services received the highest priority ratings:

- *Responding to emergencies/natural disasters* (mean: 6.1, top box: 88%)
- *Law enforcement* (mean: 5.5, top box: 80%)
- *Road maintenance* (mean: 5.4, top box: 80%)
- *Sewer services* (mean: 5.4, top box: 74%)
- *Maintaining city parks* (mean: 5.3, top box: 73%)
- *Managing storm water runoff* (mean: 5.3, top box: 71%)

Second Tier Funding Priorities: (Mean rating > 4.0)

The following services received second-tier priority ratings:

- *Supporting economic growth* (mean: 5.0, top box: 65%)
- *Protecting the tree canopy and natural environment* (mean: 5.0, top box: 65%)
- *Municipal court services* (mean: 4.6, top box: 58%)
- *Building and zoning code enforcement and inspections* (mean: 4.5, top box: 54%)
- *Building new playgrounds and sports fields* (mean: 4.3, top box: 47%)

Third Tier: (Mean rating < 4.0)

The following responses received the lowest priority ratings:

- *Continuing use of camera-enforced school zone speed limits* (mean: 3.8, top box: 42%)
- *Maintaining and installing new camera-enforced stoplights* (mean: 2.6, top box: 18%)
 - It is worth noting that this service is rated by far the lowest of any city service and appears in a negative context in several other questions as well.

Demographic Differences: Ratings were fairly consistent across all services with a couple of exceptions:

- Residents of Central Lake Forest Park (mean 5.7) were more likely than those living in North Lake Forest Park (5.0) to prioritize *road maintenance*.
- Women are more likely than men to prioritize *responding to emergencies and natural disasters* (6.4 vs. 5.9), *managing storm water runoff* (5.6 vs. 5.0), and *building and zoning code enforcement and inspections* (4.8 vs. 4.2).

Residents were asked unprompted if there are any services the City provides that they feel should be reduced or eliminated (Q15). The following were the most common responses²:

- *Traffic cameras* (12%)
- *Reduce law enforcement* (4%)
- *School zone monitoring* (3%)
- *Everything is good/fine/satisfied* (5%)
- *Nothing/none* (49%)
- *Don't know* (19%)

² See Appendix 1A for full responses.

Nearly three-quarters (73%) said either *everything is good*, *nothing*, or *don't know*, indicating there are few services with which residents are unhappy. *Traffic cameras* was the only issue mentioned by more than 10% of residents.

Residents were asked if there are any services that they feel should be increased or new services that should be added (Q16). The following were the most common responses³:

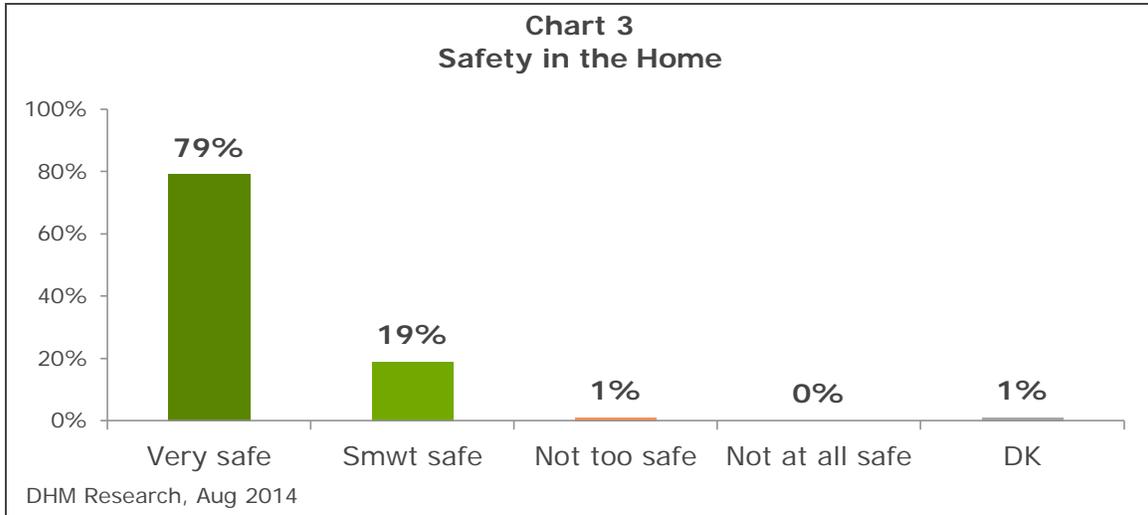

- *Increase the number of sidewalks/bike lanes* (7%)
- *Enforce public safety* (4%)
- *More parks* (4%)
- *Everything is good/doing a good job* (9%)
- *Nothing/none* (41%)
- *Don't know* (17%)

Again, a majority (67%) said either *everything is good*, *nothing*, or *don't know*, suggesting that residents overall are satisfied with the services provided by the City. Sidewalks and bike lanes, public safety, and parks were other mentions.

³ See Appendix 1B for full responses.

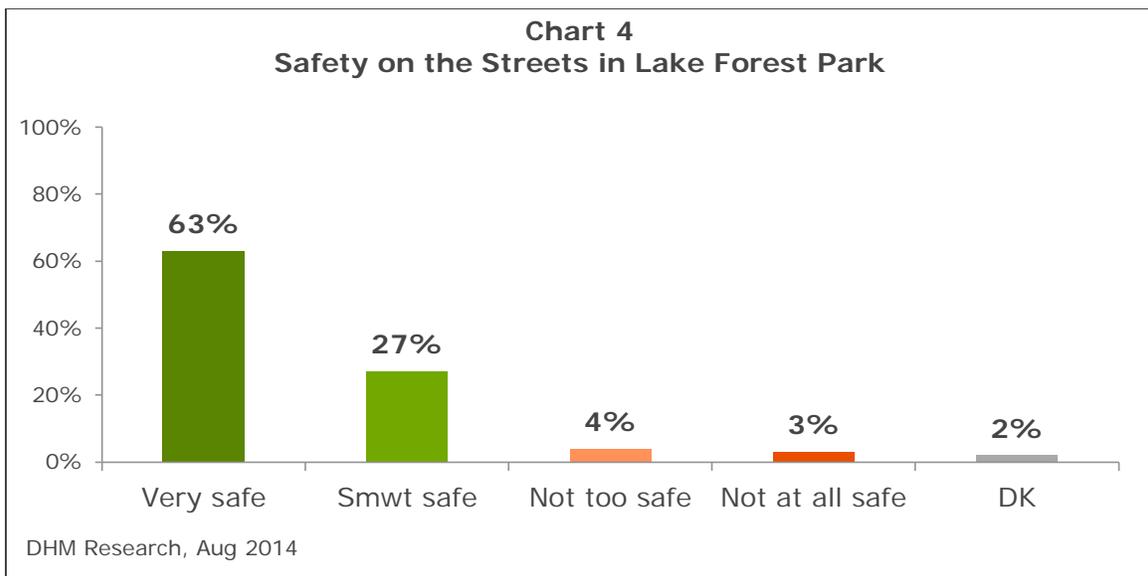

3.3 | Public Safety

Residents were asked how safe they feel in their home and on the streets of Lake Forest Park (Q18-19).

Nearly all (98%) residents felt very safe (79%) or somewhat safe (19%) in their home.

Demographic Differences: Residents of Lake Forest Park felt safe in their home regardless of demographics. At least seven in ten of all demographic subgroups felt safe in their home.

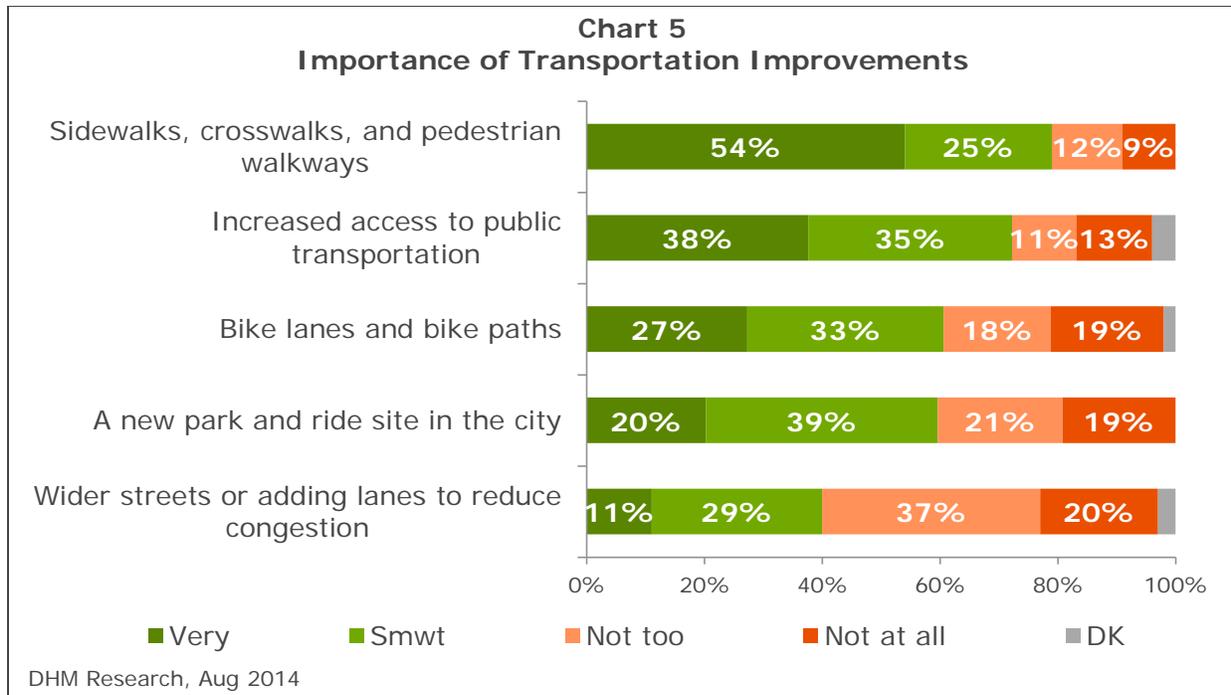

Nine in 10 (90%) felt very safe (63%) or somewhat safe (27%) on the streets in Lake Forest Park.

Demographic Differences: Again, results were consistently high across all demographic subgroups, with a majority reporting that they felt very safe on the streets of Lake Forest Park.

3.4 | Transportation

Residents were read a list of several possible transportation improvements in their community and asked to rate the importance of funding each over the next 10 years (Q20-24).

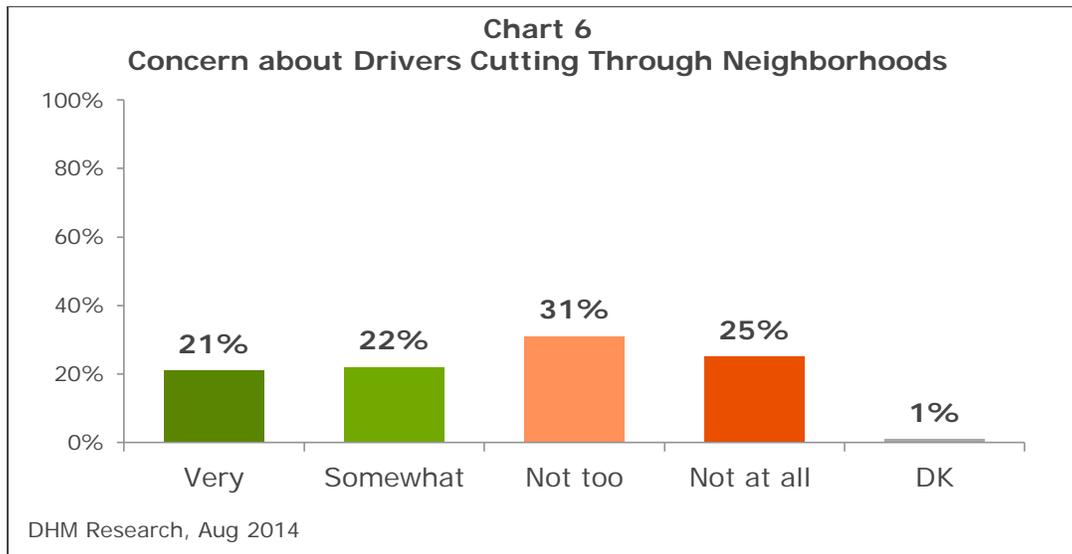

Overall, residents rated *sidewalks, crosswalks, and pedestrian walkways* (79% overall importance, 54% “very” important) the most important transportation improvement to fund over the next ten years. This was followed by *increased access to public transportation* (73% importance, 38% “very” important), *bike lanes and bike paths* (60% overall, 27% “very” important), and *a new park and ride site in the city* (59% overall, 20% “very” important). The lowest importance ratings went to *wider streets or adding lanes to reduce congestion* (40% overall, 11% “very” important).

Demographic Differences: Again, overall, very few significant differences were seen among demographic subgroups.

- Residents in South Lake Forest Park were more likely to feel *increased access to public transportation* is “very” important than those in North Lake Forest Park (55% vs. 28%).
- Women were more likely than men to feel *sidewalks, crosswalks, and pedestrian walkways* are “very” important (67% vs. 41%).

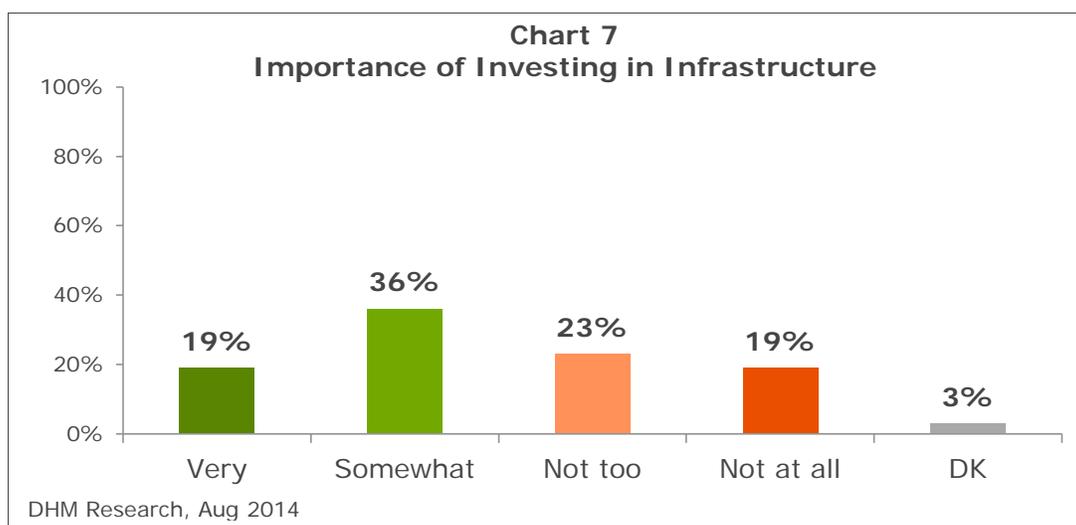

Residents were asked their level of concern about drivers using side streets as a shortcut through Lake Forest Park instead of sticking to the main roads (Q25).

A majority of residents (56%) were not concerned about drivers using side streets as a shortcut, although a sizeable number (43%) do express some level of concern.

Demographic Differences: In general, older residents (ages 55+) were more likely to be concerned about the use of side roads than those ages 18-35. Residents in South Lake Forest Park were also more concerned than those in North Lake Forest Park (68% vs. 33%).

Residents were asked how important they believe it is for the City to invest in infrastructure to make it easier to get in and out of the Lake Forest Park Town Center and from the Burke-Gilman Trail to the LFP Town Center (Q26).

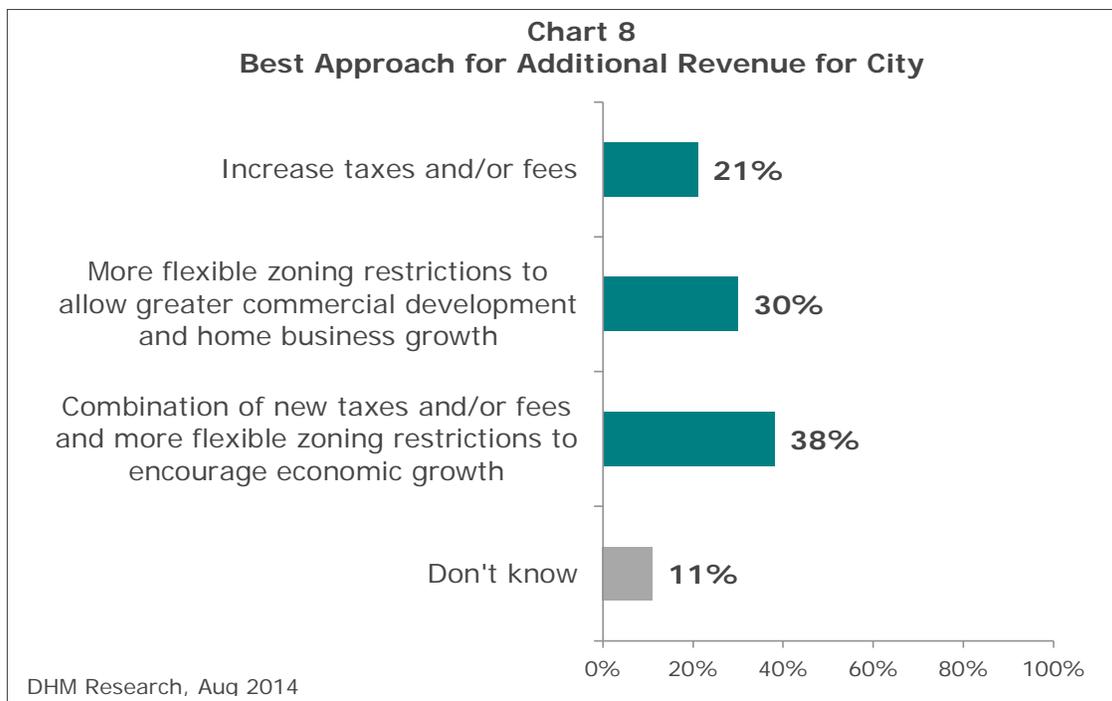

A majority (55%) said it is important to invest in infrastructure to improve access to the Lake Forest Park Town Center, although just two in 10 (19%) said it is “very” important. Four in ten (42%) did not feel investing in infrastructure to improve access is important.

Demographic Differences: Results were consistent across demographic subgroups. No significant differences exist.

3.5 | Public Finances

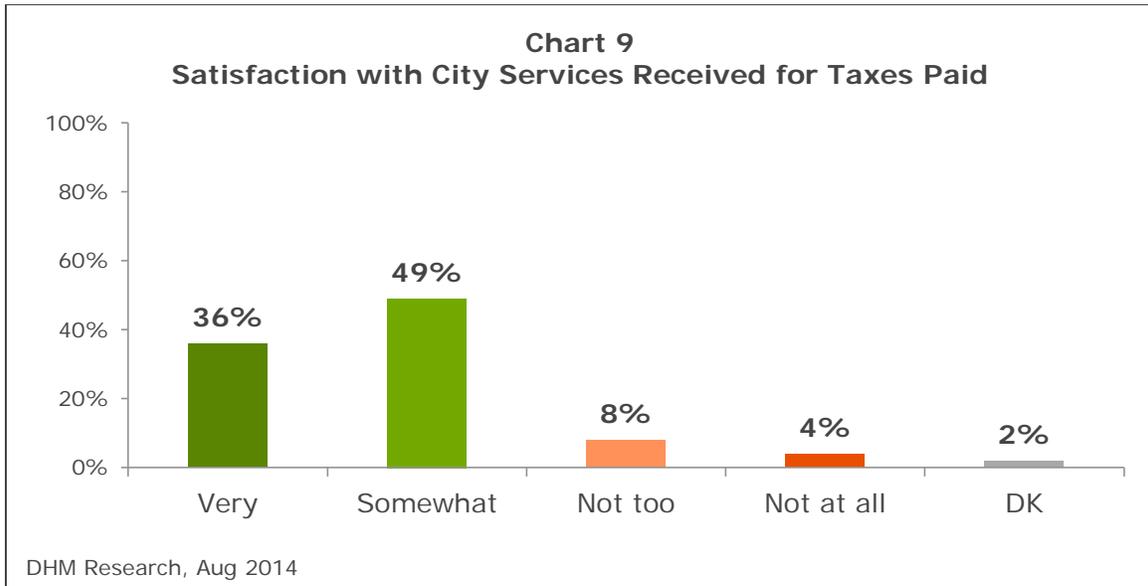

The survey next asked residents two questions about public finances in Lake Forest Park. First, it asked what approach they believe is the best way for the City to add needed additional revenue to maintain or expand services: additional taxes or fees, more flexible zoning restrictions, or a combination of the two (Q27).

A plurality (38%) preferred a combination of new taxes/fees and more flexible zoning restrictions over each approach separately. Three in ten (30%) felt the best approach would be more flexible zoning, while two in ten (21%) felt the best approach would be increasing taxes or fees.

Demographic Differences: Results were consistent across demographic subgroups. No significant differences exist.

Second, residents were asked how satisfied they are with the amount of city services they receive for the taxes they currently pay (Q29).

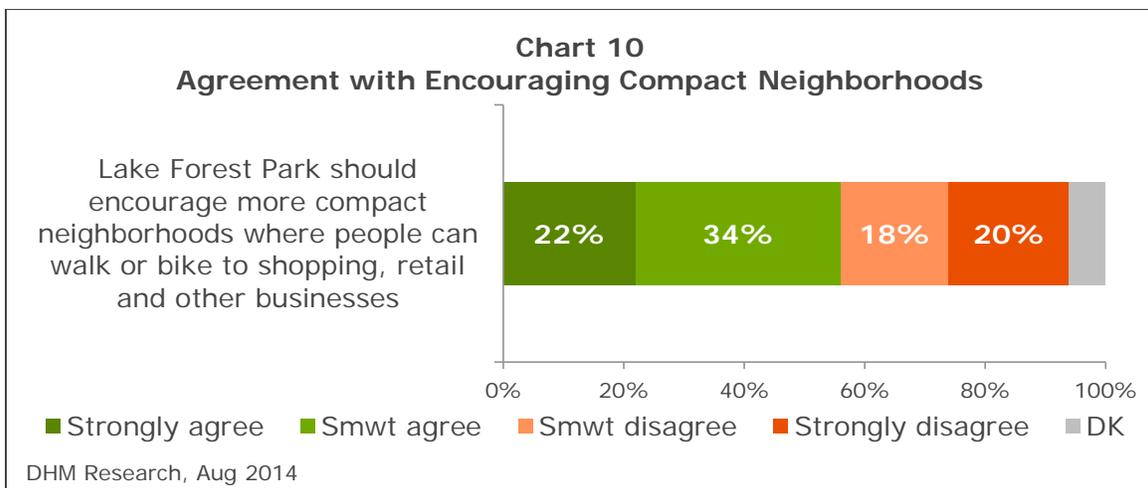

A large majority (85%) are very satisfied (36%) or somewhat satisfied (49%) with the amount of services they receive for the taxes they pay. Just one in ten (12%) are not satisfied.

Demographic Differences: Satisfaction ratings were above 80% among all demographic subgroups. No significant differences exist.

3.6 | Land Use & Business Development

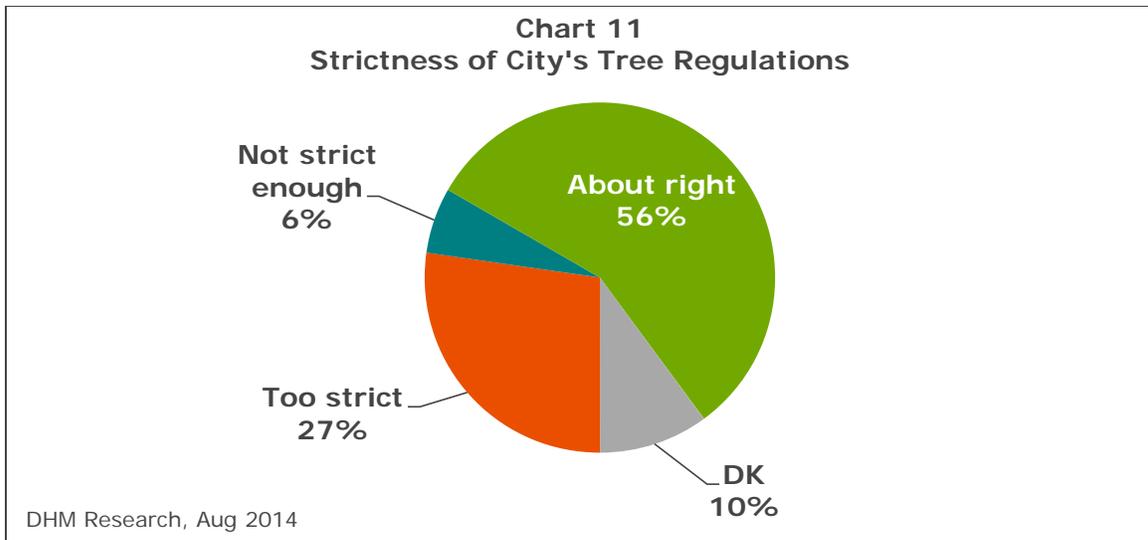

Residents were asked to indicate their level of agreement that Lake Forest Park should encourage more compact neighborhoods where people can walk or bike to shopping, retail, and other businesses (Q33).

A majority of residents (56%) agreed that the City should encourage more compact neighborhoods, while four in 10 (38%) disagreed. Notably, two in ten strongly agreed (22%) and strongly disagreed (20%) with more compact neighborhoods.

Demographic Differences: Results were consistent across demographic subgroups. No significant differences exist.

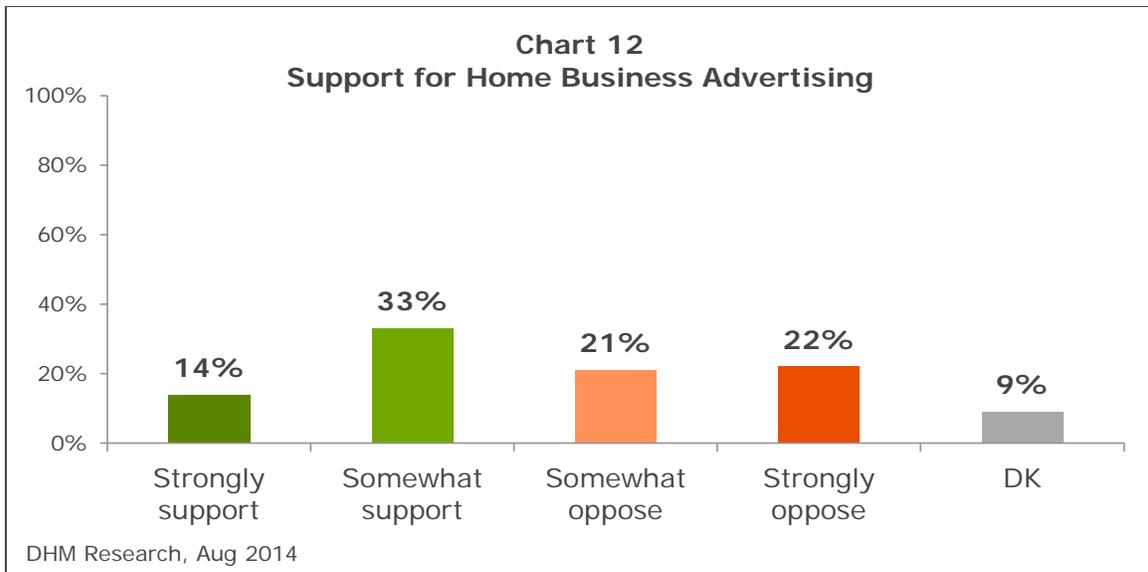

Residents were asked if the City's tree regulations are too strict, not strict enough, or about right (Q34).

A majority (56%) felt current tree regulations are about right. Three in 10 (27%) said they are too strict, while just 6% said they are not strict enough.

Demographic Differences: Feeling on the City's tree code were fairly consistent across demographic subgroups. No significant differences exist.

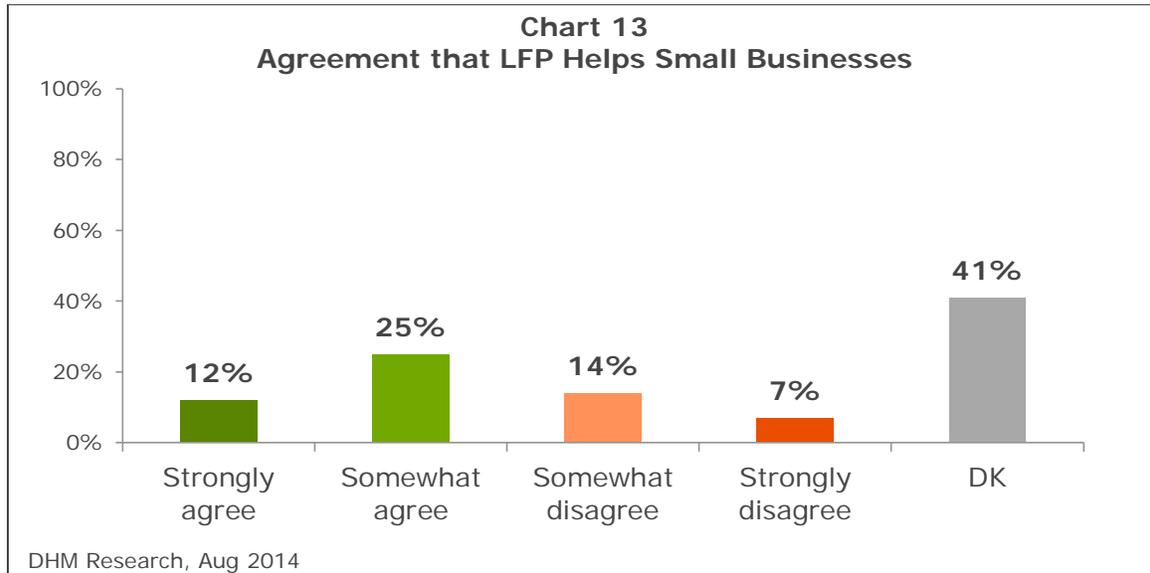

Residents were asked to indicate whether they support or oppose allowing home businesses in residential areas of Lake Forest Park to have signs advertising the business on their house or in a window (Q35).

Residents had mixed views on allowing home businesses to have signs, 47% were in support of home business advertising and 43% in opposition. Notably, residents were more likely to strongly oppose (22%) than strongly support (14%) allowing signs to advertise home business.

Demographic Differences: In general, support was fairly consistent across demographic subgroups with one exception. Residents under the age of 55 (58%) were more likely than those older (34%) to support allowing signs.

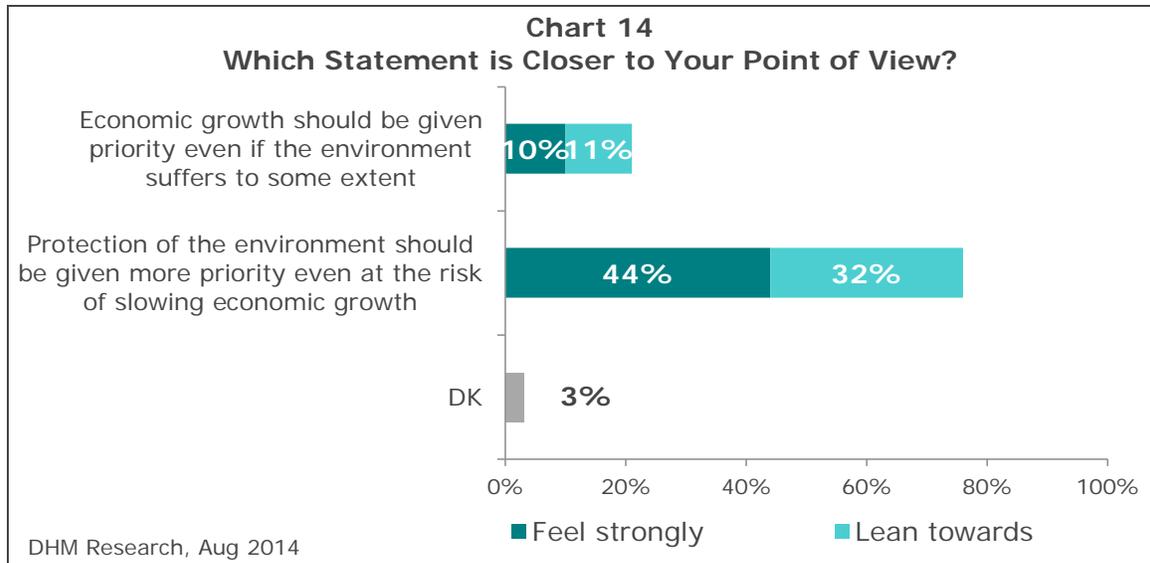

Residents were asked whether they agree or disagree that Lake Forest Park does enough to help small businesses in the area to promote economic growth (Q28).

A large number (41%) of residents were unsure, indicating low levels of awareness about the City's relationship with businesses. Of those who had an opinion, more agreed (37%) than disagreed (21%) that the City does enough, though few had a strong opinion one way or another.

Demographic Differences: In general, agreement was consistent across demographic subgroups with one exception. Residents in North Lake Forest Park were more likely to agree than those in Central Lake Forest Park (48% vs. 26%).

Continuing with economic growth, residents were asked whether protection of the environment should be given more priority, even at the risk of slowing economic growth or if economic growth should be given priority, even if the environment suffers to some extent (Q36).

Residents were more than three times more likely to say that protection of the environment should be given priority even at the risk of slowing economic growth (76%) than they were to say that economic growth should be given priority even if the environment suffers (21%). They were more than four times more likely to feel strongly towards the former statement (44% vs. 10%).

Demographic Differences: A strong majority of all subgroups felt that protection of the environment should be given priority even at the risk of slowing economic growth. However, women (84%) were more likely than men (68%) to feel this way.

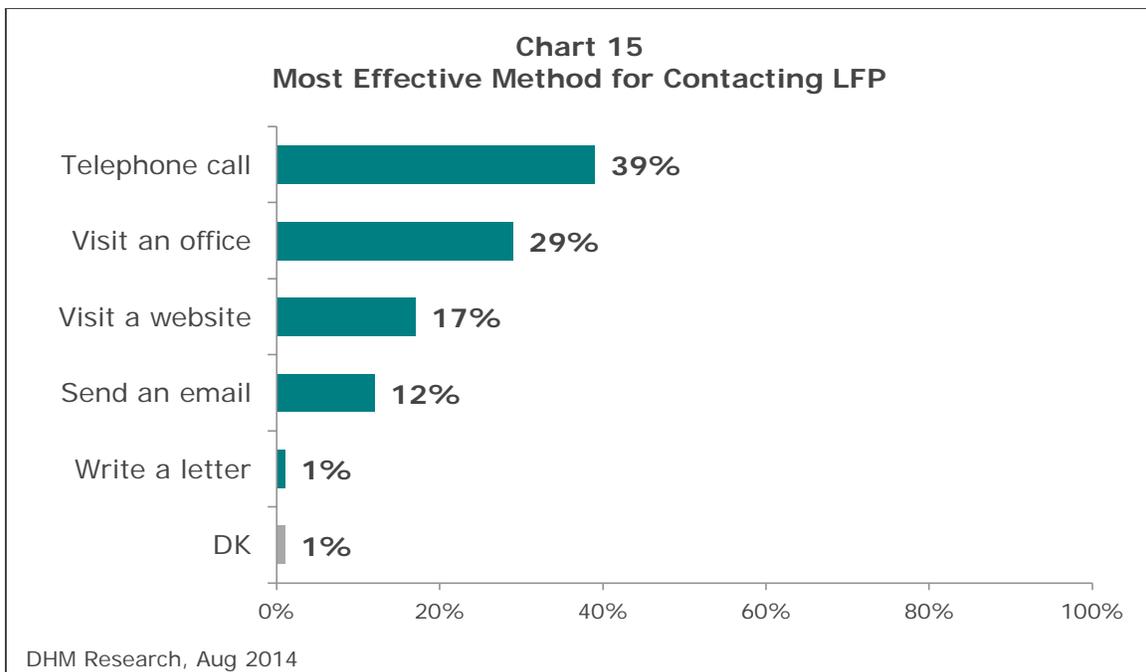

3.7 | Public Engagement

Residents were asked, unprompted, what sources they use to get information about the city (Q30). The following were the most common responses:

- *City website* (41%)
- *Word of mouth* (23%)
- *City paper newsletter (included w/ utility bill)* (21%)
- *City email newsletter* (19%)
- *Newspaper ads* (14%)

The City's website is by far the most common source, nearly twice as popular as any other source.

Residents were then asked what the most effective method would be to contact a government agency in Lake Forest Park if they had a question or needed something that required contacting the City (Q31).

A telephone call (39%) was the most preferred method, followed by visiting an office (29%). Although residents said they frequently use the City's website to get information, visiting a website (17%) and sending an email (12%) were ranked as less effective methods to contact a Lake Forest Park government agency.

Demographic Differences: Telephone and office visit were the most preferred methods across all demographic subgroups. However, men were more likely than women to prefer a telephone call (47% vs. 30%), while women were more likely than men to prefer sending an email (19% vs. 5%).

Residents were asked if they had any other feedback about how the City can better communicate with the public (Q32). The following were the most common responses⁴:

- *More info from the City via flyers/newsletters/printed updates* (10%)
- *More info from the City via online/emails* (8%)
- *They are doing a good job* (11%)
- *Nothing/none* (56%)
- *Don't know* (6%)

Combined, nearly three-quarters (73%) said either *they are doing a good job*, *nothing*, or *don't know*, suggesting that the City does not have any major problems communicating with the public.

⁴ See Appendix 1D for full responses.

4. | ANNOTATED QUESTIONNAIRE

Lake Forest Park Telephone Survey
August 7-10, 2014; N=150; Residents (18+)
14 minutes, margin of error: +/-8.0%
DHM Research

Warm up/general perceptions of the City:

1. All in all, would you say things in Lake Forest Park are headed in the right direction or are they off on the wrong track?

Response Category	N=150
Right direction	67%
Wrong track	11%
(DON'T ASK) Don't know	22%

City priorities/satisfaction:

I'm going to read you a list of services that the City of Lake Forest Park provides. For each service, using a scale of 1 to 7, where 1 is a very low priority and 7 is a very high priority; please tell me how high a priority funding that service should be. **(Randomize)**

Response Category	Top Box (5+6+7)	Mean	Don't know
2. Law enforcement	80%	5.5	0%
3. Road maintenance	80%	5.4	0%
4. Supporting economic growth	65%	5.0	2%
5. Responding to emergencies and natural disasters	88%	6.1	1%
6. Maintaining City parks	73%	5.3	1%
7. Building and zoning code enforcement and inspections	54%	4.5	3%
8. Municipal court services	58%	4.6	7%
9. Sewer services	74%	5.4	6%
10. Managing storm water runoff	71%	5.3	2%
11. Protecting the tree canopy and natural environment	65%	5.0	0%
12. Building new playgrounds and sports fields	47%	4.3	2%
13. Continuing use of camera-enforced school-zone speed limits	42%	3.8	2%
14. Maintaining current and installing new camera-enforced stoplights across the City	18%	2.6	3%

15. Are there any services that the City provides that you feel should be reduced or eliminated? **(OPEN; probe for specifics)**

Response Category	N=150
Traffic cameras	12%
Everything is good/fine/satisfied	5%
Reduce law enforcement	4%
School zone monitoring	3%
Tree regulations	2%
Reduce amount of employees working for the city	1%
All other responses	1% or less
Nothing/None	49%
Don't know	19%

16. Are there any services that the City currently provides that you feel should be increased or any new services that should be added? **(OPEN; probe for specifics)**

Response Category	N=150
Everything is good/doing a good job	9%
Increase the number of sidewalks/bike lanes	7%
Enforce public safety	4%
More parks	4%
Protect the environment	2%
All other responses	1% or less
Nothing/None	41%
Don't know	17%

17. What, in your opinion, is the single most important issue you'd like your City government to address? **(OPEN; probe for specifics)**

Response Category	N=150
Crime prevention/public safety	18%
Zoning issues	6%
Everything is good/doing a good job	5%
Traffic safety	5%
Concern for the environment	5%
Law enforcement/emergency services	4%
Economic growth	4%
Maintaining road infrastructure	4%
Education funding	3%
All other responses	2% or less
Nothing/None	8%
Don't know	11%

Public Safety:

18. How safe do you feel in your home? Would you say you feel very, somewhat, not too, or not at all safe in your home?

Response Category	N= 150
Very safe	79%
Somewhat safe	19%
Not too safe	1%
Not at all safe	0%
(DON'T ASK) Don't know	1%

19. How about on the street in Lake Forest Park? Would you say you feel very, somewhat, not too, or not at all safe when you are out in Lake Forest Park?

Response Category	N= 150
Very safe	63%
Somewhat safe	27%
Not too safe	4%
Not at all safe	3%
(DON'T ASK) Don't know	2%

Transportation:

Now I'm going to ask you about some transportation issues in your community.

Are the following transportation improvements and options very important, somewhat important, not too important, or not at all important for Lake Forest Park to fund over the next 10 years? Please be selective as the City has finite resources **(Randomize)**

Response Category	Very important	Smwt important	Not too important	Not at all important	Don't know
20. Increased access to public transportation	38%	35%	11%	13%	4%
21. Sidewalks, crosswalks, and pedestrian walkways	54%	25%	12%	9%	0%
22. Bike lanes and bike paths	27%	33%	18%	19%	2%
23. Wider streets or adding lanes to main roads to reduce congestion	11%	29%	37%	20%	3%
24. A new park and ride site in the City	20%	39%	21%	19%	0%

25. Would you say that you are very, somewhat, not too, or not at all concerned about drivers using side streets as a shortcut through Lake Forest Park instead of sticking to the main roads?

Response Category	N= 150
Very concerned	21%
Somewhat concerned	22%
Not too concerned	31%
Not at all concerned	25%
(DON'T ASK) Don't know	1%

26. Would you say that it is very, somewhat, not too, or not at all important for the City to invest in infrastructure that would make it easier to get in and out of the Lake Forest Park Town Center and from the Burke-Gilman Trail to the Lake Forest Park Town Center?

Response Category	N= 150
Very important	19%
Somewhat important	36%
Not too important	23%
Not at all important	19%
(DON'T ASK) Don't know	3%

Public Finances:

27. Which ONE of the following approaches do you believe is the best way for the City to add needed additional revenue to maintain or expand services the community finds valuable?

Response Category	N= 150
a. Increase taxes and/or fees.	21%
b. More flexible zoning restrictions that would allow a greater amount of commercial development and home business growth.	30%
c. A combination of new taxes and/or fees that would raise revenue and more flexible zoning restrictions to encourage economic growth.	38%
(DON'T ASK) Don't know	11%

28. Would you agree or disagree that Lake Forest Park does enough to help small businesses, promoting economic growth in the area? **(Wait and ask, is that strongly or somewhat?)**

Response Category	N= 150
Agree, strongly	12%
Agree, somewhat	25%
Disagree, somewhat	14%
Disagree, strongly	7%
(DON'T ASK) Don't know	41%

29. Would you say you are very, somewhat, not too, or not at all satisfied with the amount of City services you receive for the taxes you currently pay?

Response Category	N= 150
Very satisfied	36%
Somewhat satisfied	49%
Not too satisfied	8%
Not at all satisfied	4%
(DON'T ASK) Don't know	2%

Public engagement/News sources:

30. What sources do you use to get information about the City? **(Probe for up to 3 answers; DO NOT READ LIST)**

Response Category	N= 150
City website	41%
Word of mouth	23%
City paper newsletter (included with utility bill)	21%
City email newsletter	19%
Newspaper ads	14%
Other media	7%
Written materials (posters, postcards)	7%
Public access television of City meetings	6%
Neighborhood Associations (NACs)	5%
Facebook	5%
Through community organizations (churches, civic groups, Chamber of Commerce, etc.)	5%
Open houses or public meetings	3%
Internet (general)	3%
All other responses	1% or less
Don't know	4%

31. Overall, if you have a question or there is something you need that requires you contacting a government agency in Lake Forest Park, which method would be most effective? **(Randomize; read list; accept one)**

Response Category	N= 150
Telephone call	39%
Visit an office	29%
Visit a website	17%
Send an email	12%
Write a letter	1%
Personally visiting them	0%

Nothing/None	56%
Don't know	6%

Land use/business development:

Do you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statements about future growth in Lake Forest Park?

Response Category	Strong agree	Smwt agree	Smwt disagree	Strong disagree	Don't know
33. Lake Forest Park should encourage more compact neighborhoods where people can walk or bike to shopping, retail, and other businesses.	22%	34%	18%	20%	6%

34. Do you feel that the City's tree regulations are too strict, not strict enough, or about right?

Response Category	N= 150
Too strict	27%
Not strict enough	6%
About right	56%
(DON'T ASK) Don't know	10%

35. Would you say that you support or oppose allowing home businesses in residential areas of Lake Forest Park to have signs advertising the business on their house or in a window? **(Wait and ask, is that strongly or somewhat?)**

Response Category	N= 150
Strongly support	14%
Somewhat support	33%
Somewhat oppose	21%
Strongly oppose	22%
(DON'T ASK) Don't know	9%

36. For the following pair of statements, indicate which one comes closest to your view even if neither represents it exactly.

Response Category	N= 150
A. Economic growth should be given priority even if the environment suffers to some extent	
Feel strongly	10%
Lean towards	11%
B. Protection of the environment should be given more priority even at the risk of slowing economic growth	
Lean towards	32%
Feel strongly	44%
(DON'T ASK) Don't know	3%

Demographics:

The remaining questions are demographic in nature. They are for statistical purposes only, and we ask them to make sure we have a good representation of the community. No identifying information will be associated with any of your answers.

37. What is your age?

Response Category	N= 150
18-24	11%
25-34	6%
35-54	39%
55-64	13%
65+	29%
(DON'T ASK) Refused	2%

38. Gender **(by observation)**

Response Category	N= 150
Male	50%
Female	50%

39. Including yourself, how many people live in your household?

Response Category	N= 150
1 Person	10%
2 People	29%
3 People	21%
4 People	28%
5 or more people	12%
(DON'T ASK) Refused	0%

40. How many years have you lived in Lake Forest Park?

Response Category	N= 150
Less than 6 years	10%
6-10 years	18%
More than 10 years	73%
(DON'T ASK) Refused	0%

41. In which of the following areas of Lake Forest Park would you say you live? **(READ LIST)**

Response Category	N= 150
a. <u>North Lake Forest Park</u> which includes the area around Horizon View Park and is near Ballinger Way where it crosses into Shoreline.	43%
b. <u>Central Lake Forest Park</u> which includes the neighborhoods around Town Center and Grace Cole Nature Park.	34%
c. <u>South Lake Forest Park</u> which is along the lake or near the Acacia Cemetery and Seattle.	17%
(DON'T ASK) Don't know	6%
